

I'm Ingrid and **THIS IS MY RECREATION** – photography.

I enjoy getting out and capturing Yukon stories through the camera lens. People. Places. Events. And of course, I am constantly inspired by our territory's epic scenery and diverse wildlife.

There is no language barrier in photography. Photography speaks and photographs create a universal language calling our attention to things we may otherwise miss in our everyday lives.

Photography allows me to look at our world differently and connect with people and the environment.
