

I'm Judith and **THIS IS MY RECREATION** –
berry picking with my granddaughter.

Our territory's berry season starts with wild
strawberries, raspberries and blueberries and once
the first frost touches the landscape, our famous
Yukon cranberries are plump and abundant.

When I'm berry picking I become aware and
connected with the vivid beauty of the land, the
freshness of the air and the glory of the stunning
fall colours around me.

I harvest what I need and share my bounty with
friends and family to freeze and enjoy all winter.

Getting outside berry picking in the Yukon –
THIS IS MY RECREATION.
